# Case-Based Clinical Cardiology: A Comprehensive Guide to Diagnosis and Management by Majid Maleki

Cardiovascular diseases (CVDs) are the leading cause of death worldwide, and their prevalence is increasing. Case-based clinical cardiology is a subspecialty of cardiology that focuses on the diagnosis and management of CVDs in the context of individual patients. This approach takes into account the patient's unique medical history, physical examination findings, and laboratory test results to develop a personalized treatment plan.

DOWNLOAD E-BOOK 📄 PDF

This comprehensive guide to case-based clinical cardiology provides a detailed overview of the diagnosis and management of CVDs, with a focus on the patient's perspective. The book is written by Majid Maleki, MD, a leading cardiologist and author of numerous books and articles on CVDs.

Key Features

This book is a valuable resource for cardiologists, primary care physicians, and other healthcare professionals who care for patients with CVDs. The key features of the book include:

- **Comprehensive coverage of CVDs:** The book covers a wide range of CVDs, including coronary artery disease, heart failure, arrhythmias, and valvular heart disease.

- **Case-based approach:** Each chapter presents a case study of a patient with a specific CVD. The case study is followed by a detailed discussion of the patient's symptoms, physical examination findings, laboratory test results, and treatment plan.

- **Patient perspective:** The book takes into account the patient's perspective throughout the diagnosis and management process. This includes discussing the patient's symptoms, concerns, and goals of care.

- **Evidence-based recommendations:** The book provides evidence-based recommendations for the diagnosis and management of CVDs. These recommendations are based on the latest scientific research and clinical guidelines.

Table of Contents

The book is divided into 10 chapters, each of which focuses on a specific aspect of case-based clinical cardiology. The chapters are as follows:

1. **to Case-Based Clinical Cardiology**

2. **Coronary Artery Disease**

3. **Heart Failure**

Author Biography

Majid Maleki, MD, is a leading cardiologist and author of numerous books and articles on CVDs. He is a Professor of Medicine at the University of California, Irvine, and the Director of the Cardiovascular Institute at the Orange County Global Medical Center. Dr. Maleki is a Fellow of the American College of Cardiology and the American Heart Association. He is also a member of the Editorial Board of the journal Circulation.
