## Planning Your Project

The first step to any successful project is planning. This involves gathering your materials, creating a timeline, and setting a budget. If you're working on an American Girl project, you'll also need to consider the age and skill level of your child.

Once you have a good plan in place, you're ready to start working on your project.

## Executing Your Project

The next step is to execute your project. This is where you'll put all of your planning into action. Be sure to follow your timeline and budget closely, and don't be afraid to ask for help if you need it.

If you're working on an American Girl project with your child, be sure to involve them in the process as much as possible. This will help them learn new skills and develop a sense of accomplishment.

## **Polishing Your Project**

The final step is to polish your project. This involves adding the finishing touches and making sure that everything is perfect. If you're working on an American Girl project, this could include sewing on a new outfit, styling your doll's hair, or creating a custom accessory.

Once you're satisfied with your project, it's time to show it off! Share your work with your friends and family, or enter it into a contest.
