

Quilt as You Go: A Beginner-Friendly Quilting Journey

Quilting is a beautiful and rewarding craft, but traditional methods can be daunting for beginners. Enter Quilt as You Go (QAYG), a revolutionary technique that simplifies quilting, making it accessible to crafters of all skill levels.

What is Quilt as You Go?

Unlike traditional quilting, where the quilt top is pieced together before quilting, QAYG involves quilting each block as you make it. This eliminates the need for separate quilt top and backing fabrics, as well as the time-consuming process of assembling the quilt.

Benefits of Quilt as You Go

- **Beginner-friendly:** No prior quilting experience is necessary.

- **Time-saving:** Saves time by combining piecing and quilting into one step.
- **No hand sewing:** Machine quilting eliminates the need for tedious hand stitching.
- **Portable:** Quilt blocks can be made anywhere, making it an ideal craft for on-the-go.
- **Versatile:** Can be used for quilts, wall hangings, table runners, and more.

Materials Needed

* Fabric for the quilt blocks * Fabric for the quilt backing (optional) * Batting
* Thread * Sewing machine * Rotary cutter and ruler (optional)

Step-by-Step Instructions

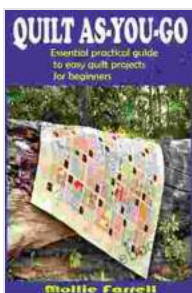

1. **Cut the fabric:** Cut squares or rectangles for your quilt blocks. The size and shape of the blocks will determine the size of the finished quilt.
2. **Create the quilt block:** Sew together the fabric pieces to form the quilt block. You can use basic piecing techniques or more elaborate designs.
3. **Quilt the block:** Place the quilt block on top of the batting and backing fabric. Quilt the block using your preferred method, such as straight lines, loops, or free-motion quilting.
4. **Trim the excess:** Trim away any excess batting or backing fabric around the edges of the quilted block.

5. **Join the blocks:** Repeat steps 1-4 for each quilt block. Then, join the blocks together by sewing them along the edges.
6. **Finish the quilt:** If desired, add a binding to the edges of the quilt to give it a finished look.
